MODULE AND ACTION CATALOG

# 50 modules. 500 actions.

A concrete tool catalog for the Ask AI framework hiring assignment.

## Scope

Implement 50 modules with exactly 10 actions each. These are proposed capabilities for a simulated business platform, not a specification of existing HighLevel APIs.

Use stateful mock handlers and synthetic data. Each action needs typed inputs, a meaningful result, and validation. Actions that change records must update stored state. Confirm destructive, bulk, and externally visible operations before execution.

## Module index

| | | | | | |
|---|---|---|---|---|---|
| M01 | Contacts | 2 | M26 | Prices | 8 |
| M02 | Companies | 2 | M27 | Quotes | 8 |
| M03 | Leads | 2 | M28 | Invoices | 8 |

| M25 | Products | 8 | M50 | Reports | 14 |

Reference IDs: M01.A01 identifies action 1 in module 1. Index numbers on the right are PDF pages.

# Modules 01-04

Each action can be invoked directly or composed into a cross-module workflow.

M01 / 10 ACTIONS

## Contacts

Manage people and their CRM profiles.

| | |
|---|---|
| A01 | Create contact |
| A02 | Get contact details |
| A03 | Search contacts |
| A04 | Update contact details |
| A05 | Archive contact |
| A06 | Merge duplicate contacts |
| A07 | Assign contact owner |
| A08 | Set communication preferences |
| A09 | Add contact relationship |
| A10 | View contact activity timeline |

M02 / 10 ACTIONS

## Companies

Manage business accounts and linked contacts.

| | |
|---|---|
| A01 | Create company |
| A02 | Get company details |
| A03 | Search companies |
| A04 | Update company details |
| A05 | Archive company |
| A06 | Link contact to company |
| A07 | Unlink contact from company |
| A08 | Assign account manager |
| A09 | Merge duplicate companies |
| A10 | List company contacts |

M03 / 10 ACTIONS

## Leads

Capture, qualify, and route prospective customers.

| | |
|---|---|
| A01 | Create lead |
| A02 | Get lead details |
| A03 | Search leads |
| A04 | Update lead details |
| A05 | Assign lead owner |
| A06 | Set lead source |
| A07 | Record qualification answers |
| A08 | Update lead score |
| A09 | Disqualify lead with reason |
| A10 | Convert lead to opportunity |

M04 / 10 ACTIONS

## Opportunities

Track individual deals through the sales process.

| | |
|---|---|
| A01 | Create opportunity |
| A02 | Get opportunity details |
| A03 | Search opportunities |
| A04 | Update opportunity value |
| A05 | Move opportunity to stage |
| A06 | Assign opportunity owner |
| A07 | Set expected close date |
| A08 | Mark opportunity won |
| A09 | Mark opportunity lost |
| A10 | Reopen closed opportunity |

# Modules 05-08

Each action can be invoked directly or composed into a cross-module workflow.

M05 / 10 ACTIONS

## Pipelines

Configure the stages and rules for sales pipelines.

| | |
|---|---|
| A01 | Create pipeline |
| A02 | Get pipeline configuration |
| A03 | List pipelines |
| A04 | Rename pipeline |
| A05 | Archive pipeline |
| A06 | Add pipeline stage |
| A07 | Rename pipeline stage |
| A08 | Reorder pipeline stages |
| A09 | Remove empty pipeline stage |
| A10 | Set stage win probability |

M06 / 10 ACTIONS

## Tasks

Organize work, deadlines, and assignments.

| | |
|---|---|
| A01 | Create task |
| A02 | Get task details |
| A03 | Search tasks |
| A04 | Update task description |
| A05 | Assign task owner |
| A06 | Set task due date |
| A07 | Set task priority |
| A08 | Mark task complete |
| A09 | Reopen task |
| A10 | Cancel task |

M07 / 10 ACTIONS

## Notes

Attach contextual notes to business records.

| | |
|---|---|
| A01 | Create note |
| A02 | Get note |
| A03 | Search notes |
| A04 | Update note |
| A05 | Delete note |
| A06 | Attach note to record |
| A07 | Detach note from record |
| A08 | Pin note |
| A09 | Unpin note |
| A10 | View note revision history |

M08 / 10 ACTIONS

## Tags

Maintain labels and apply them to records.

| | |
|---|---|
| A01 | Create tag |
| A02 | List tags |
| A03 | Rename tag |
| A04 | Set tag color |
| A05 | Delete unused tag |
| A06 | Apply tag to record |
| A07 | Remove tag from record |
| A08 | List records with tag |
| A09 | Merge tags |
| A10 | View tag usage counts |

# Modules 09-12

Each action can be invoked directly or composed into a cross-module workflow.

M09 / 10 ACTIONS

## Smart Lists

Define dynamic audiences using saved filters.

| | |
|---|---|
| A01 | Create smart list |
| A02 | Get smart list definition |
| A03 | List smart lists |
| A04 | Rename smart list |
| A05 | Update filter rules |
| A06 | Preview matching records |
| A07 | Count matching records |
| A08 | Export matching records |
| A09 | Duplicate smart list |
| A10 | Delete smart list |

M10 / 10 ACTIONS

## Custom Fields

Extend record schemas with typed business data.

| | |
|---|---|
| A01 | Create custom field |
| A02 | Get field definition |
| A03 | List fields for module |
| A04 | Rename field label |
| A05 | Update field help text |
| A06 | Set field validation rules |
| A07 | Add dropdown option |
| A08 | Retire dropdown option |
| A09 | Set record field value |
| A10 | Archive custom field |

M11 / 10 ACTIONS

## Conversations

Manage conversation threads across channels.

| | |
|---|---|
| A01 | Get conversation |
| A02 | Search conversations |
| A03 | Assign conversation owner |
| A04 | Mark conversation read |
| A05 | Mark conversation unread |
| A06 | Close conversation |
| A07 | Reopen conversation |
| A08 | Add internal comment |
| A09 | Summarize conversation history |
| A10 | List unanswered conversations |

M12 / 10 ACTIONS

## SMS

Prepare, send, and track text messages.

| | |
|---|---|
| A01 | Draft SMS |
| A02 | Preview SMS segmentation |
| A03 | Send SMS |
| A04 | Schedule SMS |
| A05 | Cancel scheduled SMS |
| A06 | Get SMS details |
| A07 | Search SMS messages |
| A08 | Get SMS delivery status |
| A09 | Receive simulated inbound SMS |
| A10 | Record SMS opt-out |

# Modules 13-16

Each action can be invoked directly or composed into a cross-module workflow.

M13 / 10 ACTIONS

## Email

Prepare, send, and track email messages.

| | |
|---|---|
| A01 | Draft email |
| A02 | Preview email |
| A03 | Send email |
| A04 | Schedule email |
| A05 | Cancel scheduled email |
| A06 | Get email details |
| A07 | Search email messages |
| A08 | Get email delivery status |
| A09 | Receive simulated inbound email |
| A10 | Record email unsubscribe |

M14 / 10 ACTIONS

## Message Templates

Manage reusable email and SMS content.

| | |
|---|---|
| A01 | Create message template |
| A02 | Get template |
| A03 | Search templates |
| A04 | Update template content |
| A05 | Archive template |
| A06 | Duplicate template |
| A07 | Define template variables |
| A08 | Validate template variables |
| A09 | Render template with sample data |
| A10 | Restore template version |

M15 / 10 ACTIONS

## Campaigns

Coordinate audience-based outreach campaigns.

| | |
|---|---|
| A01 | Create campaign |
| A02 | Get campaign details |
| A03 | List campaigns |
| A04 | Set campaign audience |
| A05 | Add campaign message step |
| A06 | Set campaign schedule |
| A07 | Launch campaign |
| A08 | Pause campaign |
| A09 | Resume campaign |
| A10 | Get campaign performance |

M16 / 10 ACTIONS

## Workflows

Build and operate multi-step automations.

| | |
|---|---|
| A01 | Create workflow |
| A02 | Get workflow definition |
| A03 | List workflows |
| A04 | Add workflow step |
| A05 | Update workflow step |
| A06 | Remove workflow step |
| A07 | Validate workflow |
| A08 | Publish workflow |
| A09 | Pause workflow |
| A10 | Get workflow execution history |

# Modules 17-20

Each action can be invoked directly or composed into a cross-module workflow.

M17 / 10 ACTIONS

## Event Triggers

Connect incoming events to workflow execution.

| | |
|---|---|
| A01 | Create event trigger |
| A02 | Get trigger configuration |
| A03 | List event triggers |
| A04 | Set trigger event type |
| A05 | Update trigger conditions |
| A06 | Bind trigger to workflow |
| A07 | Enable trigger |
| A08 | Disable trigger |
| A09 | Test trigger with sample event |
| A10 | Get trigger firing history |

M18 / 10 ACTIONS

## Forms

Capture structured input through reusable forms.

| | |
|---|---|
| A01 | Create form |
| A02 | Get form definition |
| A03 | List forms |
| A04 | Add form field |
| A05 | Update form field |
| A06 | Reorder form fields |
| A07 | Set form validation rules |
| A08 | Publish form |
| A09 | Submit simulated form response |
| A10 | List form submissions |

M19 / 10 ACTIONS

## Surveys

Collect feedback with branching questionnaires.

| | |
|---|---|
| A01 | Create survey |
| A02 | Get survey definition |
| A03 | List surveys |
| A04 | Add survey question |
| A05 | Update survey question |
| A06 | Set question branching rules |
| A07 | Publish survey |
| A08 | Close survey |
| A09 | Submit simulated survey response |
| A10 | Get survey response summary |

M20 / 10 ACTIONS

## Calendars

Configure calendars used for appointment booking.

| | |
|---|---|
| A01 | Create calendar |
| A02 | Get calendar settings |
| A03 | List calendars |
| A04 | Update calendar details |
| A05 | Set calendar timezone |
| A06 | Assign calendar host |
| A07 | Set appointment duration |
| A08 | Set booking buffer |
| A09 | Set calendar visibility |
| A10 | Archive calendar |

# Modules 21-24

Each action can be invoked directly or composed into a cross-module workflow.

M21 / 10 ACTIONS

## Appointments

Manage booked meetings and their outcomes.

| | |
|---|---|
| A01 | Create appointment |
| A02 | Get appointment details |
| A03 | Search appointments |
| A04 | Reschedule appointment |
| A05 | Cancel appointment |
| A06 | Assign appointment host |
| A07 | Add appointment attendee |
| A08 | Remove appointment attendee |
| A09 | Mark attendee no-show |
| A10 | Mark appointment completed |

M22 / 10 ACTIONS

## Availability

Manage bookable time and scheduling constraints.

| | |
|---|---|
| A01 | Set weekly working hours |
| A02 | Get weekly working hours |
| A03 | Add date-specific availability |
| A04 | Remove date-specific availability |
| A05 | Block time range |
| A06 | Remove time block |
| A07 | Set minimum booking notice |
| A08 | Set maximum booking horizon |
| A09 | Find available slots |
| A10 | Check scheduling conflicts |

M23 / 10 ACTIONS

## Booking Pages

Configure the public booking experience.

| | |
|---|---|
| A01 | Create booking page |
| A02 | Get booking page |
| A03 | List booking pages |
| A04 | Update booking page content |
| A05 | Link calendar to booking page |
| A06 | Set booking intake fields |
| A07 | Set booking confirmation message |
| A08 | Set booking redirect URL |
| A09 | Publish booking page |
| A10 | Unpublish booking page |

M24 / 10 ACTIONS

## Events

Manage group sessions and registrations.

| | |
|---|---|
| A01 | Create event |
| A02 | Get event details |
| A03 | Search events |
| A04 | Update event details |
| A05 | Set event capacity |
| A06 | Register attendee |
| A07 | Cancel attendee registration |
| A08 | Add attendee to waitlist |
| A09 | Promote waitlisted attendee |
| A10 | Check in attendee |

# Modules 25-28

Each action can be invoked directly or composed into a cross-module workflow.

M25 / 10 ACTIONS

## Products

Manage items offered for purchase.

| | |
|---|---|
| A01 | Create product |
| A02 | Get product details |
| A03 | Search products |
| A04 | Update product details |
| A05 | Archive product |
| A06 | Add product variant |
| A07 | Update product variant |
| A08 | Set product SKU |
| A09 | Set inventory quantity |
| A10 | Get inventory availability |

M26 / 10 ACTIONS

## Prices

Define product prices and billing intervals.

| | |
|---|---|
| A01 | Create product price |
| A02 | Get price details |
| A03 | List product prices |
| A04 | Update price label |
| A05 | Set price amount |
| A06 | Set price currency |
| A07 | Set billing interval |
| A08 | Set trial period |
| A09 | Set default product price |
| A10 | Archive price |

M27 / 10 ACTIONS

## Quotes

Prepare proposed purchases for customer acceptance.

| | |
|---|---|
| A01 | Create quote |
| A02 | Get quote details |
| A03 | Search quotes |
| A04 | Add quote line item |
| A05 | Update quote line item |
| A06 | Set quote expiry |
| A07 | Apply quote discount |
| A08 | Send quote for acceptance |
| A09 | Record quote acceptance |
| A10 | Convert accepted quote to invoice |

M28 / 10 ACTIONS

## Invoices

Issue invoices and track outstanding balances.

| | |
|---|---|
| A01 | Create invoice |
| A02 | Get invoice details |
| A03 | Search invoices |
| A04 | Add invoice line item |
| A05 | Update draft invoice |
| A06 | Set invoice due date |
| A07 | Issue invoice |
| A08 | Send invoice reminder |
| A09 | Void unpaid invoice |
| A10 | List overdue invoices |

# Modules 29-32

Each action can be invoked directly or composed into a cross-module workflow.

M29 / 10 ACTIONS

## Payments

Track payment attempts and invoice settlement.

| | |
|---|---|
| A01 | Create payment request |
| A02 | Get payment request |
| A03 | Cancel unpaid payment request |
| A04 | Record simulated payment |
| A05 | Get payment details |
| A06 | Search payments |
| A07 | Allocate payment to invoice |
| A08 | Remove payment allocation |
| A09 | Generate payment receipt |
| A10 | Get payment failure details |

M30 / 10 ACTIONS

## Subscriptions

Manage recurring customer billing agreements.

| | |
|---|---|
| A01 | Create subscription |
| A02 | Get subscription details |
| A03 | Search subscriptions |
| A04 | Change subscription plan |
| A05 | Update subscription quantity |
| A06 | Set subscription trial end |
| A07 | Pause subscription |
| A08 | Resume subscription |
| A09 | Cancel subscription |
| A10 | Preview next subscription invoice |

M31 / 10 ACTIONS

## Coupons

Configure and validate promotional discounts.

| | |
|---|---|
| A01 | Create coupon |
| A02 | Get coupon details |
| A03 | Search coupons |
| A04 | Update coupon description |
| A05 | Set discount value |
| A06 | Set coupon validity window |
| A07 | Set redemption limit |
| A08 | Restrict coupon to products |
| A09 | Validate coupon for order |
| A10 | Deactivate coupon |

M32 / 10 ACTIONS

## Orders

Track purchases and fulfillment status.

| | |
|---|---|
| A01 | Create draft order |
| A02 | Get order details |
| A03 | Search orders |
| A04 | Add order line item |
| A05 | Update order quantity |
| A06 | Set order shipping address |
| A07 | Apply coupon to order |
| A08 | Submit order |
| A09 | Cancel order |
| A10 | Mark order fulfilled |

# Modules 33-36

Each action can be invoked directly or composed into a cross-module workflow.

M33 / 10 ACTIONS

## Refunds

Manage refund requests against recorded payments.

| | |
|---|---|
| A01 | Create refund request |
| A02 | Get refund request |
| A03 | Search refund requests |
| A04 | Set refund reason |
| A05 | Set partial refund amount |
| A06 | Check refundable balance |
| A07 | Approve refund request |
| A08 | Reject refund request |
| A09 | Execute simulated refund |
| A10 | Get refund execution status |

M34 / 10 ACTIONS

## Tax Rules

Configure tax calculations for simulated sales.

| | |
|---|---|
| A01 | Create tax rule |
| A02 | Get tax rule |
| A03 | List tax rules |
| A04 | Set tax rate |
| A05 | Set applicable region |
| A06 | Set product tax category |
| A07 | Set tax-inclusive pricing |
| A08 | Record customer tax exemption |
| A09 | Calculate tax for order |
| A10 | Deactivate tax rule |

M35 / 10 ACTIONS

## Websites

Manage sites and their page collections.

| | |
|---|---|
| A01 | Create website |
| A02 | Get website settings |
| A03 | List websites |
| A04 | Rename website |
| A05 | Add website page |
| A06 | Set website home page |
| A07 | Update site navigation |
| A08 | Set site SEO defaults |
| A09 | Publish website |
| A10 | Unpublish website |

M36 / 10 ACTIONS

## Funnels

Configure ordered journeys toward conversion.

| | |
|---|---|
| A01 | Create funnel |
| A02 | Get funnel definition |
| A03 | List funnels |
| A04 | Add funnel step |
| A05 | Reorder funnel steps |
| A06 | Remove funnel step |
| A07 | Link landing page to step |
| A08 | Set funnel conversion goal |
| A09 | Publish funnel |
| A10 | Get funnel conversion metrics |

# Modules 37-40

Each action can be invoked directly or composed into a cross-module workflow.

M37 / 10 ACTIONS

## Landing Pages

Build and publish individual conversion pages.

| | |
|---|---|
| A01 | Create landing page |
| A02 | Get landing page |
| A03 | Search landing pages |
| A04 | Update page content |
| A05 | Add page section |
| A06 | Reorder page sections |
| A07 | Attach form to page |
| A08 | Set page SEO metadata |
| A09 | Publish landing page |
| A10 | Unpublish landing page |

M38 / 10 ACTIONS

## Blogs

Manage articles and editorial publishing.

| | |
|---|---|
| A01 | Create blog post |
| A02 | Get blog post |
| A03 | Search blog posts |
| A04 | Update blog post |
| A05 | Assign post author |
| A06 | Set post categories |
| A07 | Set post SEO metadata |
| A08 | Schedule post publication |
| A09 | Publish post |
| A10 | Unpublish post |

M39 / 10 ACTIONS

## Media Assets

Store and organize images and downloadable files.

| | |
|---|---|
| A01 | Upload media asset |
| A02 | Get asset metadata |
| A03 | Search media assets |
| A04 | Rename media asset |
| A05 | Set asset alt text |
| A06 | Move asset to folder |
| A07 | Replace asset file |
| A08 | List asset references |
| A09 | Generate asset access link |
| A10 | Delete unreferenced asset |

M40 / 10 ACTIONS

## Courses

Configure learning programs and their structure.

| | |
|---|---|
| A01 | Create course |
| A02 | Get course details |
| A03 | Search courses |
| A04 | Update course details |
| A05 | Add course section |
| A06 | Reorder course sections |
| A07 | Assign course instructor |
| A08 | Set course prerequisites |
| A09 | Publish course |
| A10 | Archive course |

# Modules 41-44

Each action can be invoked directly or composed into a cross-module workflow.

M41 / 10 ACTIONS

## Lessons

Manage lesson content and completion conditions.

| | |
|---|---|
| A01 | Create lesson |
| A02 | Get lesson details |
| A03 | Search lessons |
| A04 | Update lesson content |
| A05 | Attach lesson media |
| A06 | Move lesson to course section |
| A07 | Set lesson release schedule |
| A08 | Set lesson completion criteria |
| A09 | Publish lesson |
| A10 | Unpublish lesson |

M42 / 10 ACTIONS

## Enrollments

Manage learner access and learning progress.

| | |
|---|---|
| A01 | Enroll learner in course |
| A02 | Get enrollment details |
| A03 | Search enrollments |
| A04 | Set enrollment expiry |
| A05 | Suspend enrollment |
| A06 | Resume enrollment |
| A07 | Revoke enrollment |
| A08 | Record lesson completion |
| A09 | Get learner progress |
| A10 | Issue course completion certificate |

M43 / 10 ACTIONS

## Communities

Operate discussion spaces and moderate content.

| | |
|---|---|
| A01 | Create community |
| A02 | Get community details |
| A03 | Update community guidelines |
| A04 | Create discussion channel |
| A05 | Join community |
| A06 | Leave community |
| A07 | Create community post |
| A08 | Reply to community post |
| A09 | Pin community post |
| A10 | Remove reported post |

M44 / 10 ACTIONS

## Memberships

Manage access packages spanning courses and communities.

| | |
|---|---|
| A01 | Create membership plan |
| A02 | Get membership plan |
| A03 | List membership plans |
| A04 | Update plan description |
| A05 | Add plan entitlement |
| A06 | Remove plan entitlement |
| A07 | Grant membership to contact |
| A08 | Set membership expiry |
| A09 | Revoke membership |
| A10 | Check member access |

# Modules 45-48

Each action can be invoked directly or composed into a cross-module workflow.

M45 / 10 ACTIONS

## Reviews

Collect and respond to customer reviews.

| | |
|---|---|
| A01 | Create review request |
| A02 | Send review request |
| A03 | Cancel unsent review request |
| A04 | List review requests |
| A05 | Record simulated customer review |
| A06 | Search reviews |
| A07 | Get review details |
| A08 | Draft review response |
| A09 | Publish review response |
| A10 | Get review rating summary |

M46 / 10 ACTIONS

## Business Listings

Manage business profiles in simulated directories.

| | |
|---|---|
| A01 | Create business listing |
| A02 | Get listing details |
| A03 | Search business listings |
| A04 | Update listing name |
| A05 | Update listing address |
| A06 | Update listing phone |
| A07 | Set listing business hours |
| A08 | Set listing categories |
| A09 | Publish listing to simulated directory |
| A10 | Get listing sync status |

M47 / 10 ACTIONS

## Support Tickets

Track customer issues and resolution work.

| | |
|---|---|
| A01 | Create support ticket |
| A02 | Get ticket details |
| A03 | Search tickets |
| A04 | Assign ticket owner |
| A05 | Set ticket priority |
| A06 | Update ticket status |
| A07 | Add internal ticket note |
| A08 | Reply to ticket requester |
| A09 | Link ticket to contact |
| A10 | Get ticket SLA status |

M48 / 10 ACTIONS

## Users

Manage platform user accounts and access.

| | |
|---|---|
| A01 | Invite user |
| A02 | Get user profile |
| A03 | List users |
| A04 | Update user profile |
| A05 | Assign user role |
| A06 | Revoke user role |
| A07 | Deactivate user |
| A08 | Reactivate user |
| A09 | List user permissions |
| A10 | View user audit activity |

# Modules 49-50

Each action can be invoked directly or composed into a cross-module workflow.

M49 / 10 ACTIONS

## Teams

Organize users and shared work allocation.

| | |
|---|---|
| A01 | Create team |
| A02 | Get team details |
| A03 | List teams |
| A04 | Rename team |
| A05 | Add team member |
| A06 | Remove team member |
| A07 | Assign team manager |
| A08 | Set team assignment strategy |
| A09 | Get team workload |
| A10 | Archive team |

M50 / 10 ACTIONS

## Reports

Query business metrics and manage saved reports.

| | |
|---|---|
| A01 | Create saved report |
| A02 | Get report definition |
| A03 | List saved reports |
| A04 | Update report filters |
| A05 | Set report date range |
| A06 | Set report grouping |
| A07 | Run report |
| A08 | Compare report periods |
| A09 | Export report results |
| A10 | Schedule report delivery |

## Using this catalog in the assignment

Direct: Create a contact and assign an owner. Contacts: create contact, assign contact owner.

Indirect: Help me follow up with leads who have gone quiet. Resolve the timeframe and audience, search leads and conversations, then create follow-up tasks.

Complex: Find overdue invoices, exclude customers reminded this week, and draft email reminders. Combine invoice data, email history, and template rendering.

Benchmark the same task set for action selection, parameter correctness, final-state accuracy, end-to-end latency, and total model/API cost.
